

Follow these simple steps to Shop Now

1: Select a product to add to your List.

You'll first need to identify what Miller product(s) you are interested in. To create your list, start at a product page - you can view all Miller products by name or category via the menu at the top of this page.

Click the **Ready to Buy?** icon on the product page. Review the list of models available and click the **Add to List** button by the specific stock number you are considering. You can add Miller accessories to your list using the same method.

2: Review your list and enter your postal code.

You can add or remove items from your list. To add additional products or accessories, select *Continue Browsing* . For a printable version of your list, select *Print Your List* .

Once your list is complete, simply enter your postal code and click **Continue**.

3: Select a local Distributor.

Review the list of participating distributors in your area. Check the box next to the Miller Distributor that you would like to contact and click **Continue**.

4: Enter your contact information and send your list.

Complete all the fields on the contact form and click **Submit**. Your contact information and shopping list will be sent via e-mail directly to the Distributor you selected. After submitting your request, you will immediately receive an e-mail confirmation. The Distributor should respond to your request within 2-3 business days.

Miller Electric respects your privacy and does NOT sell any personal information – please feel free to review our [privacy policy](#). **Thank you for letting Miller help with all your welding needs!**
